drluiscardenas@veosaludvisual.com
ORCID 0000-0002-3350-4489
Research Topics: Strabismus, Pediatric Cataract and Glaucoma.

Dr. Luis Javier Cárdenas Lamas is a Colombian ophthalmologist specializing in clinical neuro-ophthalmology. He earned his medical degree at the Industrial University of Santander (1977–1982) before completing specialty training in ophthalmology at the Santander Ophthalmology Foundation (1992–1994). He then pursued supra-specialization in Clinical Neuro-ophthalmology at the Central University of Venezuela, Vargas Hospital, in Caracas (1995). His research has appeared in publications including GMS Ophthalmology Cases and Archives of the Spanish Society of Ophthalmology, covering topics such as cortical blindness in tuberous sclerosis complex, neuro-ophthalmological manifestations of occipital tuberculoma, and Susac syndrome. Dr. Cárdenas Angelone has also presented at national and international ophthalmology congresses in Colombia.
