ORCID 0009-0002-0032-6601
Research Topics: Allergies / Ocular Surface, ROP, Myopia, Strabismus And Community Ophthalmology

Kianti Raisa Darusman, MD, Sp.M(K), M.Med.Sci is a consultant ophthalmologist practicing at Eka Hospital BSD, with a subspecialty focus on pediatric ophthalmology and strabismus. She earned her medical degree from Universitas Trisakti, Jakarta, in 2003, followed by ophthalmology specialty training at Universitas Indonesia, graduating from RSUPN Dr. Cipto Mangunkusumo in 2008. She furthered her expertise through a clinical fellowship in pediatric ophthalmology and strabismus at the National University Hospital, Singapore (2010–2011). With over a decade of clinical experience, Dr. Kianti treats conditions including refractive errors, amblyopia, strabismus, and congenital eye disorders in children. She is an active member of PERDAMI, WSPOS, and AAPOS, frequently speaking at scientific forums, and contributes to research and publications on pediatric eye health. She is also engaged in community screening and education initiatives to promote early detection of childhood eye conditions.
