ORCID: 0000-0001-6200-3694

Research Topics: Optic nerve, Imaging, strabismus, amblyopia

Dr. Rita Gama, MD, serves as Head of the Pediatric Ophthalmology and Strabismus Department at Hospital da Luz in Lisbon, Portugal. In this role, she leads a specialized clinical team dedicated to diagnosing and treating vision disorders in infants, children and adults with eye movement disorders, including strabismus (particularly eye muscle surgery and the use of botulinum toxin) amblyopia, ophthalmic imaging and developmental conditions affecting pediatric eye health. Dr. Gama has an extensive expertise in, and a particular focus on, the unique challenges of treating young patients. In addition, her leadership at Hospital da Luz includes a commitment to increasing the availability of pediatric eye care through teaching trainees. Her research activity includes periodical reviewing and authorship of over a dozen research articles, three books and several book chapters.
