ORCID: #0000-0002-6067-6972
Scopus Author ID: #56966502400
Research Topics: uveitis, glaucoma

Sanna Leinonen is a consultant ophthalmologist specializing in uveitis and glaucoma, with research focused on systemic disease-associated uveitis, including pediatric uveitis, and the full spectrum of glaucoma. She leads initiatives that support early-career clinicians in developing practical research skills and launching studies within diverse practice settings. Her work emphasizes collaborative networks, patient-centered investigation, and expanding research opportunities for clinicians worldwide. She is committed to strengthening the global community of pediatric ophthalmology researchers.
