Research Topics: Strabismus, Nystagmus, Congenital Cataract, Myopia

Dr. Nucci is Professor of Ophthalmology at the University of Milan and a leading authority in pediatric ophthalmology, strabismus, and myopia management. He was Director of the University Eye Clinic at San Giuseppe Hospital in Milan and currently chairs the Degree Program in Orthoptics and Ophthalmic Assistance at the University of Milan. Following his MD and ophthalmology residency, he completed a Pediatric Ophthalmology Fellowship at the University of Chicago. His research focuses on pediatric eye diseases, cataract, glaucoma, amblyopia, and myopia. He has served as Principal Investigator in numerous national and international multicenter clinical trials. Professor Nucci has authored over 283 peer-reviewed scientific publications, edited major ophthalmology textbooks, and written several books on medicine and healthcare. He has held leadership positions in the Italian Society of Pediatric Ophthalmology and the WSPOS, and continues to contribute extensively to clinical research, medical education, and public health policy.
