

Aparna Raghuram, OD, PhD
Boston Children's Hospital
Boston, MA
aparna.raghuram@childrens.harvard.edu
ORCID 0000-0002-2913-6046
Research Topics: Myopia, Amblyopia, Psychophysics, Concussion, CVI, IRD's

Dr. Raghuram is a clinician-scientist specializing in pediatric vision care. She serves as Director of Optometry at Boston Children's Hospital and Assistant Professor of Ophthalmology at Harvard Medical School. Dr. Raghuram earned her OD from the New England College of Optometry, a PhD in Vision Science from the University of Missouri–St. Louis and completed a pediatric optometry residency at NECO. Her research focuses on amblyopia, strabismus, cortical visual impairment, learning disabilities, visual attention, concussion, and vision rehabilitation. She has received numerous honors, including the 2018 Knights Templar Award, the American Academy of Optometry's 2021 Career Development Award, and the 2024 Faculty Innovative Research Award. Dr. Raghuram has also held key leadership roles with the Pediatric Eye Disease Investigator Group, including Vice Chair and Lead Recruiter.
