Dr. Federico G. Velez is the Leonard Apt Endowed Chair in Pediatric Ophthalmology and Professor of Clinical Ophthalmology at the Stein Eye Institute and Doheny Eye Institute, David Geffen School of Medicine at the University of California, Los Angeles. An internationally recognized authority in pediatric ophthalmology and strabismus, he has authored more than 250peer reviewed publications and delivered over 500 invited lectures worldwide, including eight named lectures and 35 keynote presentations. His research interests include strabismus, amblyopia, thyroid eye disease, ocular fibrosis, artificial muscle stimulation, and pediatric corneal sensitivity. Dr. Velez has pioneered innovative surgical techniques for complex strabismus and contributed to clinical practice guidelines. He is currently Executive Secretary of the Latin American Council of Strabismus and Chair of the American Academy of Ophthalmology Pediatric Ophthalmology and Strabismus Annual Program Subcommittee. His distinguished career has been recognized with numerous awards for excellence in clinical care, research, and education.
